Summary

An active five-semester student in the Informatics Engineering program at Universitas Negeri Surabaya with a strong interest in technology, specializing in Front-End Development and UI/UX Design. I am passionate about creative design and enjoy the process of translating these designs into real web or application experiences. Proficient in design techniques such as wireframing, prototyping, and user research to create attractive and functional designs. Skilled in using HTML, CSS, and JavaScript. I have developed various projects to create responsive and interactive user interfaces. Seeking to leverage my skills and passion for web development in a Front-End Developer role.
